Ethan is an 8 year old 2<sup>rd</sup> grader in Meadowbrook School District. Ethan already has an IEP under the eligibility of OHI. He was recently evaluated by the Autism Center of America and diagnosed with Autism Spectrum Disorder. Ethan also has a medical diagnosis of ADHD. The parents bring the medical report from the doctor to the school district and request an IEP be written based on these diagnosis. The school district conducts a re-evaluation of Ethan and determines that he is not eligible for an IEP under the IDEA criteria for ASD, but continues to be eligible for an IEP under OHI. The parents disagree with the decision and have requested mediation.
